

SHAYAN AHMAD

Full Stack Web Developer | BS Software Engineering Student | React.js • MongoDB

📞 92 3409302040 @shayanahmad368@gmail.com 🔗 linkedin.com 🔗 github.com/shayan368 📍 Peshawar, Pakistan

SUMMARY

Full Stack Web Developer with over 2+ years of hands-on learning and project-based experience in modern web development. Skilled in building responsive and scalable applications using React.js, Node.js, Express.js, and databases such as MongoDB and PostgreSQL. Passionate about creating user-focused solutions, continuously improving technical skills, and applying best practices in software development. Strong foundation in frontend and backend technologies with experience developing personal, academic, and freelance projects.

Professional Training & Development

Web & Mobile Application Development

📍 Saylani Mass IT Training (SMIT), Peshawar

📅 11/2024 - 04/2026

- Completed a comprehensive two-years training program in Web and Mobile Application Development.
- Developed full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Built responsive user interfaces and RESTful APIs for real-world projects.
- Worked with version control systems, databases, and modern development workflows.
- Collaborated on team-based projects and applied software engineering best practices.

Advanced Web Application Development

📍 NAVTTC, CsTechnology

📅 03/2026 - 06/2026

- Successfully completed an intensive three-month Advanced Web Application Development program.
- Strengthened expertise in frontend and backend technologies.
- Developed scalable web applications and gained practical experience in modern frameworks and development tools.
- Enhanced skills in application architecture, performance optimization and deployment practices.

EDUCATION

Bachelor of Science (BS) in Software Engineering

Islamia College University Peshawar

📅 11/2022 - 06/2026 📍 Peshawar, Pakistan

PROJECTS

AI Clinic Management System

🔗 <https://lifecare-aiclinic.vercel.app/>

Built a complete clinic management system with separate dashboards for Admin, Doctor, Receptionist, and Patient. The system includes patient records, appointment management, prescriptions, PDF reports, AI-powered healthcare features, secure authentication, and subscription management.

Pollify – Online Polling Platform

🔗 <https://bootcamp-p1-pollify-frontend.vercel.app/>

Built an online polling platform that allows users to create polls, participate in voting, and view poll results. Implemented user authentication, OTP verification, and a simple, user-friendly interface.

Transportation Logistics Company

🔗 <https://mk-transportation.vercel.app/>

Designed and developed a professional, responsive website for MKTransportation, showcasing its logistics services, company information, locations, and contact details. The project focused on creating a clean, modern, and user-friendly experience for customers across different devices.

SKILLS

Frontend Development

- HTML5
- CSS3
- JavaScript (ES6+)
- React.js
- Tailwind CSS
- Bootstrap

Backend Development

- Node.js
- Express.js
- REST API Development
- Authentication & Authorization (JWT)

Database Management

- MongoDB
- MySQL

Version Control & Tools

- Git
- GitHub
- VS Code
- Postman

INTERESTS

Problem Solving Challenges

I regularly take on algorithmic and logical puzzles to strengthen analytical thinking and creativity.

Mentoring & Knowledge Sharing

Enjoy guiding aspiring developers through career advice and real-world project insights.

Continuous Learning

Committed to lifelong learning and exploring new concepts, leadership skills, and emerging product ideas.
